INTERNATIONAL COMMUNITY OF PRACTICE FOR SUSTAINABLE URBAN DEVELOPMENT
PARTNERS

A cooperation between:

- Deutsche Gesellschaft für Internationale Zusammenarbeit (GIZ)
- German Association of Cities
- Engagement Global / Service Agency Communities in One World
- Funded by BMZ
BACKGROUND

- **Challenges of urbanisation** call for innovative solutions
- Need for **inclusive, safe, resilient and sustainable cities**
- Variety of **solutions** already exists, but not widely known
- Lack of **systematic access** to practice-oriented solutions
  → Mobilisation of practical experience in sustainable urban development for **joint learning** of urban stakeholders around the world
OBJECTIVES OF CONNECTIVE CITIES

To facilitate worldwide **networking** between urban actors from politics, administration, business, science and civil society

To support a systematic and application-oriented **exchange** of experience on good practices and through peer-to-peer-consultations

To support the development of innovative ideas for **urban projects**
THEMATIC CLUSTERS

GOOD URBAN GOVERNANCE
- Democracy and public participation
- Urban management and administration
- Decentralisation
- Municipal and decentralised networks
- Municipal finance and local budgeting

LOCAL ECONOMIC DEVELOPMENT
- Green urban economy
- Corporate social responsibility (CSR)
- Local development
- Promotion of business start-ups
- Facilitation of innovations
- Promotion of SME

INTEGRATED URBAN DEVELOPMENT
- Urban design and urban environmental planning
- Sustainable urban lifestyles
- Inclusive cities
- Cities and climate change
- Sustainable urban mobility

MUNICIPAL SERVICES
- Waste management
- Water supply / wastewater treatment
- Energy production
- Public Transport
Rethinking Public Service Delivery - Innovative Solutions for Managing and Financing Public Services
14 -16 October 2014 - Province Gauteng, South Africa

From Waste to Resources: Integrated Solid Waste Management in Sub-Saharan Africa
14 -17 April 2015 - Kinondoni, Tanzania
PROJECT IDEA
Nakuru, Kenya

Population: 473,000

Challenge
Low recycling / recovery rate (~20%)

Objective
Increased resource recovery

Involved actors
- Civil society
- Local authorities
- County assembly
- Development partners
- Private sector
- Ministry of Education
- NGOs

Creation of a waste recovery plan
- Developing a task force with public consultation, supervised by a steering committee, with relevant stakeholders, approved by local authorities

Provision of adequate funding
- Lobbying the county assembly and engaging development partners

Improvement of market access for recycables
- Conducting a market survey for recycables,
- Building capacities and setting incentives for local companies and residents

Increase awareness among residents
- Conduct public campaigns, design and disseminate info material in cooperation with education partners

Positive side effects
- Extension of landfill lifespan
- Reduced costs for SW operations
- Job creation
- Climate change mitigation
CONNECTIVE CITIES EVENTS IN MIDDLE EAST-INITIATIVE

From Waste to Resources: Integrated Solid Waste Management

4 - 6 July 2017 – Kocaeli, Turkey

After the structural transformation from the 1950s until the 1990s around 70,000 jobs were lost in the city of Dortmund....
BENEFITS

• Access to international know-how and to innovations as well as practical experiences about urban transformation processes
• Involvement in international networks among dedicated practitioners with hands-on experience
• Development of individual and institutional capacities for local innovations based on state-of-the-art learning concepts and technology
• Implementation of innovative and collaborative projects
OBJECTIVES FOR THE WORKSHOP

• Foster exchange and collaboration among participants from different cities in Turkey and Germany from the waste management sector

• Support practice-oriented exchange on good practices in SWM

• Provide peer-to-peer advisory services in a conducive and creative workshop environment

• Develop capacities of participants to analyze existing SWM systems and create local action plans

• Define future support measures to strengthen capacities for projects as well as for continuous exchange through the community of practice
